### HOA Meeting Budget Mtg.

Meeting Convened @ 7:00 pm 2 the Senior Citizen Center

The discussion opened with Paul talking about the proposal budget of 2010.

After Paul spoke then the board fielded questions from the HOA members about possible cost saving solutions.

It was proposed that the HOA members would come up with some ideas about saving cost and present them at the next HOA mtg in June.

There was also discussion about how the Trail Settlement with county was going and that the county had tabled the issue at this time.

There was also discussion about the landscaping at the exterior of the Cobblestone subdivision and that board was working on some ideas for resolving this issue, but in the meantime homeowners at their own expense would be able to landscape after a plan submittal.

\$15,000 had been set aside for the completion of the landscape that John Howard Is installing at the south west corner of the common area in the Cobblestone Subdivision.

Adjourned 8:30p.m.
